

An Introduction to China Computer Federation Sensor Network Technical Committee (CCF SNTC)

Dr. Li Cui
Institute of Computing Technology
Chinese Academy of Sciences

Outline

- About CCF
- About CCF SNTC
- Organization of SNTC
- Members
- Website and contact
- Recent activities

About CCF

- The China Computer Federation is the largest national academic organization in China established in 1956
- Within 50 years, CCF has established 32 Technical Committees which span a wide range of technical realm in computing science and technology
- Sensor Network Technical Committee (CCF SNTC) is the youngest member of the CCF family established on the 19th of October in 2006

About SNTC

- SNTC was initiated by a group of researchers and enterprisers from Institutes, Universities and Industries who are active in this booming area
- The goal of CCF SNTC is to promote research, development and application of sensor network related technologies by providing an excellent open cooperation platform to sensor network researchers, application developers, end users and other practitioners from the mainland of China and other related areas, e.g., Hong Kong et al

Organization of SNTC

- The leaders of SNTC were elected by its members according to the regulation of CCF
- Director: Prof. DAI Hao (戴浩院士)
- Deputy directors: Profs. LI Jianzhong, MA Jian and SUN Limin (李建中, 马建, 孙利民)
- Secretary-general: Dr. CUI Li (崔莉)
- Chief counsellor: Prof. NI Mingxuan (倪明选)
- Secretary office is located in ICT to take care SNTC's routine

Members

- Experts of various professional background
- Institutes / Universities / Industries / Organization
- Domestic / International

Website and contacts

- <http://www.sensornet.org.cn>
- Academic affair: Prof. Li Jianzhong
- Committee development: Prof. MA Jian
- Committee organization: Prof. SUN Limin
- Routine contact email:
ccf-sntc@sensornet.org.cn

Recent activities

- 第一届中国传感器网络学术会议（CWSN'2007）
- **CFP**
- **2007年9月8–10日， Harbin China** 中国哈尔滨
- 主办单位：中国计算机学会传感器网络专业委员会
- 承办单位：哈尔滨工业大学
- 会议论文集将以《计算机科学》专刊形式出版，并选出部分论文在《计算机研究与发展》传感器网络专辑（正刊）发表

Thank you very much indeed
