

# “Taking a Car” on Research Collaboration

Liu Yuan An, Prof. and Director of STO  
Beijing University of Posts and Telecommunications

---

# Why We Do?

- n No more space in other car;
- n All we have common feeling to something, “a sight view”, to somebody, “a friend”;
- n All we have to go a place, facing a challenge together using our individual capability, “mountain peak with more than 4000m?”
- n .....
- n **Everything means the same interests**

**It is the thing in cooperation**

---

---

# Wishes from Company to BUPT

- n Original ideas investigation, individually and generally
- n Fundamental investigation
- n Specified topics investigation
- n Company dependent

---

# Wishes from BUPT to Company

- n Complementary investigation
- n Free original ideas
- n Guided targets
- n Long-term plan

---

# Feasible Hints for Better Collaboration

- n Right topics
- n Clear targets
- n Minimum joint meeting
- n Periodically exchange the research progress
- n Stable contact persons
- n Mutual understanding for short-term unsuccessful events
- n No scale limitation

---

# Collaboration Project Number in BUPT

- n 60-100 projects from oversea companies and governments
- n More than 500 projects from domestic companies and local governments

---

# Nations Distribution in BUPT

- n The first four regions or countries
  - q China
  - q EU, especially FP6
  - q Japan
  - q US

---

# Topic Distribution in BUPT

## n Oversea

q Fundamental

n 3-5/y

q Guided fields, but generally

n More than 30/y

q Specified topics

n More than 50/y

## n Domestic

q Specified topics

n More than

q 400/y

n Guided fields, but generally

q More than 100/y

---

# Summary

- n Collaboration is necessary both university and company
- n BUPT always welcome for any company
